LAFOLLETTE WILL BE NOMINEE THIRD PARTY IF WANTED

IS UNANIMOUS CHOICE OF SELF-STYLED LIBERAL ORGANIZATIONS—WILL BE CALLED LABOR PARTY

DON E. CHAMBERLAIN
(United Press Staff Correspondent.)
Chicago, July 8.—Senator Robert M. LaFollette, of Wisconsin, will be chosen the proposed third party's presidential nominee, according to the prevailing belief today of delegates here to attend the national convention of liberal organizations which opens on Saturday and Sunday.

Inquiries today among leaders of the national labor party and committee of forty-eight, which will open conventions Sunday and Saturday respectively, was practically a unanimous opinion that LaFollette will be the standard bearer of the new party if he will accept. But LaFollette will not be allowed to keep the convention in suspense. Assurance must be given that he will accept, leaders said, or some other candidate will be chosen.

Frank P. Walsh, of Kansas City, also stood out today as a possible candidate. He is a member of the organized labor parties, and particularly favors the labor element.

LaFollette's strength, it was said, lies in his ability to draw the entire support of the nonpartisan league.

A. W. Ricker, treasurer of the committee of forty-eight believes the third party could make a formidable showing with LaFollette. He figures LaFollette could sweep North and South Dakota, Minnesota, Wisconsin and possibly carry Idaho, Montana and Washington.

A row apparently has developed between the liberals over the name of the new party. The committee of forty-eight favors a new name under which all parties could unite.

The labor party however is expected to demand the new party be called the "Labor Party."

Will Announce Decision Next Week
Madison, Wis., July 8.—Sen. Robert M. LaFollette, prominently mentioned as a prospective presidential nominee of the third party, will make known his attitude toward the new movement in his magazine next week, it was said here today.

LaFollette, according to a reliable source, is ready to make a race on the third party ticket providing liberal organizations will unanimously agree on him, and allow him to write a platform. LaFollette conferred here for several hours with his supporters yesterday, and the third party movement was discussed.

CANADIAN SUGAR PRICES PROMPT FEDERAL PROBE

U. S. INVESTIGATORS CLAIM CHICAGO WHOLESALE IMPORTING PRODUCT AT 9 CENTS A POUND

Chicago, July 8.—Shipments of between 4,000,000 and 5,000,000 pounds of sugar being received in Chicago by way of Canada were billed to packers, canners and wholesalers at as low as 9 and 9½ cents a pound, federal investigators said today.

The United States district attorney office said an investigation would be started to determine if evidence of profiteering existed. All sugar invoices would be examined and the consignees questioned, federal officers said. They declared that if wholesalers are paying only 9 and 9½ cents a pound for sugar, the retail price should not be higher than 11 cents.

Wholesalers and other large users were generally reported to be paying 26 and 26½ cents for sugar, with the retail price hovering around 30 cents.

TURKS FIRE ON BRITISH BATTLESHIP

Turkish nationalists forces at Beikos today fired upon the British dreadnaught Iron Duke lying in the harbor. The battleship returned the fire, shelling the Turkish position.

BRAXTON BRAGG COMER

Braxton Bragg Comer is the new United States senator from Alabama, appointed by Gov. Thomas F. Kilby to serve until a successor to the late John H. Bankhead is elected.

GOVERNOR ACTIVE TO PREVENT FUEL FAMINE THIS WINTER

Asks Governors of North and South Dakotas, Wisconsin and Iowa to Help in Matter

(By United Press)

St. Paul, July 8.—Governors of North and South Dakotas, Wisconsin and Iowa today were asked by Governor Burnquist to join in urging President Wilson to appoint at least a temporary fuel administration.

This action followed receipt of a wire from John P. McGee, state fuel administrator at Washington, urging immediate action to prevent the most serious fuel famine in history of the northwest this coming winter. Efforts will be made by the governor and O. P. B. Jacobson, state railroad and warehouse commissioner, to organize a committee of federal officials and business men to augment the government in making a plea for coal.

GERMANS MUST DISARM WITHIN THREE MONTHS

REQUEST FOR FIFTEEN MONTHS TIME IS REFUSED BY THE ALLIES

CARL D. GROAT

(United Press Staff Correspondent.)

Spa, Belgium, July 8.—Germany must comply with the disarmament provision of the peace treaty within three months, it was decided by the allies. The German delegation will be notified to that effect when the conference reconvenes here today.

The German request for fifteen months' time in which to disarm was met with a flat refusal. Marshall Foch said significantly that if the German delegates were not willing to face the music, the allies still had a strong force under arms which could enforce the treaty.

HARDING DRAFTING ACCEPTANCE SPEECH

HAS BEEN PUTTING IN TEN HOURS A DAY OVER PHRASES DEFINING ISSUE

Marion, Ohio, July 8.—In an effort to get the first draft of his acceptance speech well out of the way today Warren G. Harding virtually locked himself in his office and labored with pencil and pad over the preparation of phrases which will define the campaign issue on July 22.

Will H. Hays, national chairman, and Harry M. Dougherty, Harding pre-convention manager, are expected to arrive for a conference with the presidential candidate tomorrow.

The nominee has been putting in eight and ten hours a day at his desk since his arrival here, and has excluded recreation from his daily routine.

NEGRO VOTE IS SUPPRESSED BY BRUTAL FORCE

IN GEORGIA, TESTIFIES A NEGRO REPUBLICAN BEFORE SENATE INVESTIGATING COMMITTEE

(By United Press)

Chicago, July 8.—That eighty-five per cent of the negro votes in Georgia is "outrageously suppressed by brutal force" was the declaration here today before the senate committee investigating campaign expenditures of Henry Lincoln Johnson, negro republican and national chairman from Georgia.

Johnson, called in to explain the disposition of \$9,500 alleged to have been sent him by Lowden campaign managers, declared it was a "struggle for a republican to vote in Georgia."

In the last three or four years, said Johnson, there has been a great exodus of negroes from Georgia.

"Every time the whites burn a victim, many colored people leave the state for more kindly treatment."

In response to a question by Senator Kenyon as to whether men were lynched for being republicans, Johnson answered in the affirmative.

"In 1888 a man voted for Benjamin Harrison and hasn't been seen since," said Johnson.

RAILWAGE REPORT DUE IN TEN DAYS

Chicago, July 7.—Announcement of an award by the United States railroad labor board in the case of 2,000,000 railroad workers seeking an annual increase of \$1,000,000,000 is expected within the next 10 days, G. W. W. Hanger, board member, said today.

MRS. CATO SELLS

Mrs. Sells, wife of the Indian commissioner, is greatly interested in her husband's work and frequently accompanies him on his visits of inspection.

GRAIN MUST BE STORED ON FARM

St. Paul, July 7.—Northwest grain will have to be stored on the farms this fall because cars will not be available to move all of it.

The report was announced by federal reserve banks through C. L. Mosher, assistant federal reserve agent.

In his address to the annual convention of tri-state grain shippers association which opened in the West hotel yesterday, Mosher said the unprecedented help which the federal reserve banks give to farmers is made necessary by the unusual crop prospect.

He remarked that difficulty of financing the crop is not the major factor in the case, but consequence of the car shortage.

CHARGES OBREGON RESPONSIBLE FOR CARRANZA MURDER

EX-MEXICAN AMBASSADOR PROTESTS AGAINST RECOGNITION OF REVOLUTIONARY GOVERNMENT

A. L. BRADFORD

(United Press Staff Correspondent.)
Washington, July 8.—Ignacio Bonillas, Mexican ambassador to the United States under the Carranza regime, was in Washington today attempting to persuade the state department to refuse recognition of the new government of Mexico.

Bonillas' visit followed the reception of Acting Secretary of State Davis, of Fernando Calderon, high commissioner of the new Mexican government.

Bonillas has charged to the state department officials that General Obregon, leader of the revolt against Carranza, was the instigator of the murder of Carranza. He charged that Rodolfo Herrero, accused of the murder, was merely a tool.

CHARACTER WITNESSES WILL TESTIFY IN THE NASH INQUIRY

St. Paul, July 8.—Character witnesses today will testify before Governor Burnquist as to the past of Wm. M. Nash, suspended Hennepin county attorney, charged by federal officials with conspiracy in a whisky smuggling plot.

Efforts were made by the attorney general to show that Nash had recommended dismissal of a number of criminal cases in which he and his brother were personally interested. Many cases which were dismissed, he charged, were against clients of the Nash brothers.

JOSEPH H. DEFREES

Joseph H. Defrees of Chicago, who was elected president of the United States chamber of commerce at the convention in Atlantic City.

WOMAN SHACKLED, HELD PRISONER IN CABIN THREE DAYS

Unties Rope Bonds With Teeth and Flees With Baby to Fort Snelling Range

Minneapolis, July 7.—Shackled with ropes and deprived of her clothes, to prevent her escape, Mrs. Helen Harres was held a prisoner for three days in a lonely log cabin four miles from the Fort Snelling rifle range while she battled to save herself, she told Minneapolis police and deputy sheriffs today, following her flight last Friday from the cabin to the fort after she had untied her bonds with her teeth. At the fort she obtained protection from the soldiers.

With her was her baby, two years old.

Both mother and child were given medical treatment, having suffered terribly from hunger, exposure and the bites of mosquitoes, which covered their bodies with welts.

Accused Man is Arrested
Herman Peters, occupant of the cabin, whom Mrs. Harres accuses of holding her prisoner, was arrested today and placed in the county jail on a serious charge.

Peters, Mrs. Harres charges, lured her to his cabin in the woods through an advertisement for a housekeeper to care for his children—children who turned out to be mythical. Then she charges, he overpowered her, took her clothes away, bound her wrists with ropes and during three days and nights—days and nights in which she dared not sleep or relax her vigilance for an instant—he repeatedly sought to attack her, but always was repulsed successfully.

Once, she charges, Peters untied her bonds, gave her a shotgun and told her to blow out her brains. When she finally escaped, she said, Peters pursued her in her flight to the fort with her baby.

The woman, according to Minnie Maddison, policewoman, into whose care she was given last Friday after her escape, is a person of culture and refinement whose husband is a patient in a sanitarium and who sought to relieve her difficult financial circumstances by obtaining employment as a housekeeper.

VILLA OFFERS TO SURRENDER ON CERTAIN CONDITIONS

RALPH TURNER

(Staff Correspondent United Press.)
Mexico City, July 8.—The revolutionary government has not decided whether to accept or reject Pancho Villa's offer to surrender made to an emissary of the government at a conference with the bandit leader, it was learned today.

Villa said he was willing to surrender under certain conditions, according to the report.

Possible Economy.

One day when James was taking a walk with his grandmother they met a man who had his glasses so far down that he could easily look over them. After they had passed him James said: "Grandmother, why does he look over his glasses; is he afraid of wearing them out?"

EMBARGO AGAINST TRADE WITH RUSSIA HAS BEEN REMOVED

NO POLITICAL RECOGNITION—TRADING MUST BE DONE AT TRADERS OWN RISK

(By United Press)

Washington, July 8.—In removing the embargo against Russian trade, President Wilson has written the final chapter to the present administration policies toward the soviet government. The action it was said, would carry the following provisions:

Each applicant for permission to ship to Russia will be trading on his own merits. Shipment of material "susceptible of immediate use for war purposes" will be prohibited.

Political recognition of any Russian authority, exercising or claiming to exercise governmental function, is neither granted nor implicated by this action.

Individuals or corporations taking this opportunity to trade with Russia will do so entirely on their own responsibility, at their own risk, and assistance which the United States normally extends to its citizens or trade with recognized countries can not be looked for in the shape of Russia. The prospects of travel from and to Russia and the United States are unchanged by the lifting of the embargo and passports for Russia will still be withheld.

The United States does not recognize the validity of industrial and commercial intercessions granted by bolshevist authorities. Americans are warned against the risk of accepting commodities or other valuables in payment for shipments where the title later may be questioned.

NONPARTY SLATE TO RUN IN NOVEMBER

DECISION REACHED AT MEETING HERE AFTER 45 MINUTES

SPEECH BY TOWNLEY

Minneapolis, July 7.—Nearly 1,000 Nonpartisan party leaders, representing every county in the state, as a meeting in the Auditorium, presided over by A. C. Townley, decided late today that every nonpartisan candidate for state office, from Dr. Henrik Shipstead down, defeated at the primaries in June, are to be candidates again in November for the same offices.

The decision was arrived at after Townley had given a talk that lasted for 45 minutes. He explained how the move could be accomplished by petition the names of the defeated candidates to replace those now on the Farmer-Labor ticket, who are to withdraw their names, Townley said.

Wild cheers greeted the name of Dr. Henrik Shipstead every time it was mentioned.

After the decision had been reached the members devoted the time to discussing ways and means for the financing the fall campaign.

HARDINGS OBSERVE WEDDING ANNIVERSARY

(By United Press)

Marion, Ohio, July 8.—Senator and Mrs. Harding were quietly observing their twenty-ninth wedding anniversary today.

The presidential candidate was at his office before eight o'clock again today. Later he made a call of sympathy on his cousin Frank Harshman, locomotive engineer, whose daughter died recently.

Mrs. Harding has accepted an invitation to attend the Indiana horse show at Indianapolis next September, but prefers not to act as judge. She has been asked to judge the saddle class.

WILL INVESTIGATE CAMPAIGN EXPENSES IN MISSOURI

(By United Press)

Chicago, July 8.—The senate committee investigating campaign expenditures will open an investigation of the democratic expenditures in Missouri, at St. Louis tomorrow morning, it was announced here today by Senator Kenyon, chairman.

THE WEATHER

Forecast for next 24 hours:

at 1:45 o'clock this afternoon. It
was the first rain in three days.

Dance at Swartz Hall, Nisswa, Sat-
urday night. Tibbett's Orchestra.

Miss Amy Freeberg, teacher here
five years ago, is visiting Rev. and
Mrs. Eloy G. Carlson and other
friends. She is now teaching in Spo-
kane, Wash. Before returning to the
west she will also visit friends and
relatives in Minneapolis and Fargo.

The fire department responded to
an alarm at the Elbinger store at 726
Fourth Avenue Northeast at 11
o'clock. The flames were in the par-
titions and some damage was done
before the department could extin-
guish the blaze.

Mrs. F. H. Simpson and daughter,
Mary Frances left today for Seattle,
where they will join Mr. Simpson and
where they expect to reside in the
future. Mr. Simpson being treasurer
of the Seelie-Tanner Land company
here.

Dance at Gardner Auditorium
Thurs. July 8. Park Orchestra.

Wadena, Sank Centre and Brock-
ridge fairs have arranged for a
race association. The Wadena fair
will be held Sept. 28 to Oct. 1. Fair
admission prices will be 75c per
ticket, as agreed upon by the State
Federation of State Fairs.

The Tanner Mill Co. of Brainerd
is building a large cement block
warehouse, 50 by 50 feet in size, in
fronton where J. M. Kluft, former-
ly of Brainerd, is manager of the
branch known as the Tanner Flour
& Feed Co. A large wholesale and
retail business is done by the firm
which acts as a supply center for the
range, handling flour, feed, cereals
etc. Shipping facilities are good at
fronton, which is served by the Nor-
thern Pacific and Soo lines.

His Idea of Train's Action.

There is a story of a Suffolk (Eng-
land) yokel who, having lived some
distance from a railway station, and
being content with the society around
him, had never had need of a train,
and, being brought into contact with
a railway, stood watching this new won-
der not far from a tunnel. His de-
scription of it afterward was that a
train was more or less like a rabbit—
"he ran up to the hole, let off an awful
screach and bolted into it."

The Thinkers of Old.
In the seventeenth and eighteenth
centuries the greatest thinkers of
the world gave themselves up to mathe-
matical and physical research.

ROAD
BUILDING

BOND ISSUE IS BIG PROBLEM

Best Means to Pull Counties Out of
Land of Mud—Make All Improve-
ments Permanent.

The biggest single issue before the
people today is good roads; biggest
not alone of itself, but biggest be-
cause the prompt and satisfactory so-
lution of a permanent road system in
every state will help to solve a half-
dozen fundamental problems and in-
directly affect for good, as well as in
dollars and cents, almost every phase
of farm, social and industrial life in
the state. We cannot expect to have
a real system of roads unless it is
based on large units and this is best
accomplished by accepting the county
and state basis with a few experienced
and responsible men in charge in each
case. We must have roads that begin
and end somewhere.

Many counties are presenting to the
taxpayers the question of a bond issue
for the improvement of their high-
ways. The bond issue for a public
improvement should be governed by
the same considerations which govern
a bond issue by any business organiza-
tion. When a manufacturing concern
issues bonds, the money raised is
placed in permanent improvements in
the plant which will last far beyond
the life of the bonds, or else no in-
vestor would purchase the securities.
Bonds for municipal purposes or for
public improvements are not always
subjected to this acid test, and in-
stances are numerous in this country
where bonds for twenty years have
been issued for the construction of
public roads, where the type of roads
built with the proceeds of the bond
issue could not possibly last more than
ten years, and even then expensive
maintenance is continually necessary.
In some instances history shows that
during the life of such a bond issue
the original road has been worn out
and rebuilt with a different material,
and with the proceeds of subsequent
bond issues as many as three times,
and still the original bonds are a li-
ability on the community.

Bond issues for better roads are the
best means to pull counties out of the
Land of Mud. But it must be certain
that the road improvements are to last
the life of the bonds. This can be as-
sured by securing expert and unpreju-
diced engineering advice on the best
kind of roads for the soil. The banker
can perform yeoman service in this
connection.

In the state of Iowa the man who be-
gan with nothing and now owns a \$30-
000 farm, believes in paying as he goes
when building a road, but he will bor-
row money from an insurance company
with which to buy more land, and he
has not yet seen that when he builds

Making Necessary Repairs on Macadam Road.

a concrete bridge with one year's
tax money, he has made a Christmas
present of that bridge to posterity for
the next one hundred years. He says
that thirty-year paved roads are im-
possible because \$10,000 per mile is
too much to pay out of one year's tax

TEWFIK PASHA

tion sent to Paris by the sultan of Tur-
key to receive and sign the treaty of
peace.

money, and it has not occurred to him
that there will still be taxpayers when
he is dead and gone, who will be using
that road, and by rights should have
to pay some of it.—Wallace's Farmer

COST OF VARIOUS HIGHWAYS

Macadam Road is Most Expensive, But
When Built is Satisfactory and
Permanent.

Dirt roads are ordinarily surfaced
with sand, mixed with clay or with
gravel, or brick, or crushed stone, con-
crete or other like material. The gravel
road will cost from \$1,500 to \$3,500
a mile—the difference in cost depend-
ing upon the accessibility of gravel.
The macadamized road costs from \$2-
000 to \$10,000 per mile. It is the most
expensive, but when well built is both
satisfactory and permanent.

Essential Foundation.
Permanent foundations, having uni-
form bearing quality, are essential to
all types of engineering structures.
Roads are no exception.

Try Draining Wet Place.
Did you ever try draining that aw-
ful wet place in the road? Try it
some time—once will be enough.

Don't Build on Paper.
If you want that road you're going
to build to be of any value, build it
on the ground—not on paper.

Little
Money Saver
Says:

During this Hot Weather you
will find real comfort in using
a Perfection or Paritan Oil
Stove. The two burner is
\$18.50, the 3 burner \$25.00 and
the four burner \$31.50. A one
burner oven which we sell at
\$9.00 is an economy when used
instead of your regular gas
oven.

IRONTON

Ironton, Minn., July 7.—Mrs. Patti Russ was the guest of honor at a surprise party given Thursday evening at the home of Mrs. Sarah Cochran. Mr. and Mrs. Russ will make their home in Duluth.

Mrs. Harold Bolder was surprised by friends and relatives on the occasion of her birthday.

Two graduates of the Crosby-Ironton high school, Miss Mary Peterson and John Rodeck, and one of the teachers, Miss Small of Aitkin, have gone to Chicago to attend the Drake school.

Attorney D. B. McAlpine is visiting in Saskatoon, Ontario. Mrs. McAlpine and the children who have been there the past six weeks visiting her parents, will return home with him.

Wm. Seafeld went to Minneapolis Tuesday.

Miss Agnes Enlus visited her mother in Minneapolis.

Peter Spina of Milwaukee, Wis., was in town on business.

Miss Ruth Dahlstedt visited in Minneapolis.

Mr. and Mrs. P. D. Kreitter are entertaining the former's parents, Mr. and Mrs. J. W. Kreitter of Duluth, and his brother-in-law and sister, Mr. and Mrs. Pratt. On Saturday evening Mr. and Mrs. Kreitter entertained at bridge for their guests.

William Deering, now interested in lumber yards in Washington, was in town.

Miss Evelyn Clemens is enjoying a vacation in St. Paul.

OLLE I. SKRATHULT

Swedish Comedian and Company of Singers and Dancers Please Many at Gardner Hall

Hjalmar Peterson as Olle I. Skratthult and his company of eight people pleased a large audience at Gardner auditorium on Wednesday evening, the folk songs and dances and plays being presented with real artistry and the musicianship of the players being of the highest order.

Applause was frequent. After the show there was a dance, music being furnished by the two accordion players of the company. Olle I. Skratthult pleased all who saw and heard him and he and his company will be assured of a still larger audience when they again visit Brainerd.

Fireside Club

The Fireside club of the Norwegian-Danish Lutheran church will meet at the home of Mr. and Mrs. David Ebinger, near Lum park, on Friday evening. Every one is welcome.

W. C. T. U. Meeting

The W. C. T. U. met on Tuesday afternoon with Mrs. Armour E. Thayer to elect officers. Mrs. Grace Williams was elected president. Mrs. Alex Whitted vice president, Mrs. H. G. Wilson treasurer, Mrs. George Fallon secretary. Mrs. P. J. Walters gave a report of the convention at Motley.

The next meeting will be held at the Y. M. C. A. July 20. On August 2 Mrs. P. J. Walters will entertain the members.

MISS BESSIE AGNES DWYER

Miss Bessie Agnes Dwyer, lawyer, librarian and lecturer on the Philippines, who has been named as delegate to the national Democratic convention at San Francisco by the Democratic party of the Philippines. She spent 16 years in the Philippines in the service of the insular bureau.

A Bat's a Hog.

A bat is supposed to be able to absorb and digest in one night food three times the weight of its own body.

The Day.

The day is always his, who works in it with serenity and great aims.—Emerson.

PRINCESS ISANIA

Princess Isania, daughter of Chief Ponowsky of the Cherokee Indian tribe, has remarkable singing and instrumental talent. She was overseas for eight months entertaining the American expeditionary force.

IN NEW PARASOLS

Sunshades Made of Calico, Pongee, Cretonne, Glazed Paper.

Brown Color for Umbrellas, but Riot of Bright Hues for the Summer Convenience.

Gaily painted paper is used in summer parasols. Taffeta and cretonne, always prominent in these, are used probably more than any other materials, although for the country there are sunshades of calico, pongee and even glazed paper painted in gay designs, observes a writer of fashion articles.

Brown is still the fashionable color for umbrellas, but in sunshades we see

Cretonne Parasol in Bright Rose, Blue, Yellow and Green.

a riot of bright hues. Seen in shops is a bell-shaped, coral-colored taffeta parasol that looks, when open, like a huge flower, as it is composed entirely of picot-edged scallops that give the appearance of petals. It has a slender ivory handle treated in such a way as to indicate age and carved with tiny Egyptian figures.

Another, in the shape of a bell, consists of rows of old blue taffeta—a real French blue. It is bordered with Dresden ribbon in an old tapestry design. The top of this sunshade is rather flat, but the sides curve like a real bell. In order to be in keeping with the new wraps a tiny box-plaited ruffle of moire ribbon goes about the edge. It has a plain wood handle with a pierced amber tip.

One has the top made of white satin brocaded in velvet in shades of brown, red and blue, with narrow ruffles of old blue taffeta around the edge. Half-way up the parasol is a large plaited ruffle of the taffeta caught to each rib in the effect of a sunburst.

All the lovely, old-fashioned checked and flowered taffetas in light colored patterns seen in the dresses for mid-summer are duplicated in parasols. One of checked taffeta—wistaria with white—has four narrow plaited ruffles at the edge and a rosette of the same silk on a light wooden handle.

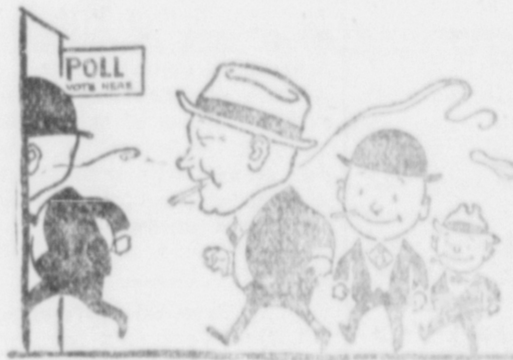

It is not surprising to see striped awning cloth in country parasols. In fact, it is such a logical material for these that we wonder why nobody appears to have thought of it before, for, after all, an awning is a sunshade on a huge scale. These awning parasols are like the short, heavy, English umbrellas.

Spurs head the ticket for wise smokers

Returns show Spur the undisputed choice of smokers who are tired of the same old thing.

Spur Cigarettes stood every test—quality of tobacco, character, appearance. Measured up to every plank in the platform of smoke-worthiness.

The polls are still open. Join the procession to the nearest cigarette dealer's. Two dimes will qualify you. Yes, sir.

And when you open that classy package of

Spur Cigarettes

You Can Taste the Good Tobacco

Your gratified smoke taste will set you boosting loud for the new cigarette leader.

Line up, folks, line up!

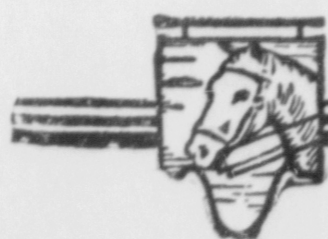

Manufactured by

GLOOM A MORAL POISON

However deplorable the conditions of things, moral or material, there is no reasonable excuse for the harboring of gloom. Government is not much mended by chronic scolding nor morals by habitual foreboding. Seeing the worse side is profitable only when it stimulates to the building up of the better side.

Just now, when the world is in disorder and publicity is plentiful, one is apt to see black in whatever direction one looks. Probably no since the Confederation days, following the American Revolution, has there been in this country so universal a distrust of human honesty as now. Grafting in politics, profiteering in trade, slacking in industry, hypocrisy in religion—these black evils seem to exist everywhere, and to color the whole moral atmosphere. They have come to form a too large proportion of our reading and of our conversation.

Gloom is born of distrust, and of all mental attitudes, distrust is most demoralizing. Distrust is the immediate parent of the anarchy hitherto so common in Latin America, and now rife in Germany, Russia and all the Near East. A prominent Mexican when asked by an American why his country did not select some commission of trustworthy men to map out a workable government, replied: "We have no one here that we can trust as you have."

No one who constantly harps on our national sins will much improve America. There is, of course, a kind of optimism that borders on cheerful idiocy. But this is the other extreme of the undiscerning mentality.

In order that we may keep our judgment sane and give our country constructive aid, it is necessary to remember that in America, there is a great body of people rigidly honest, cleanly religious, thoroughly patriotic and ready to sacrifice their own for the country's good. We must admit also that even now we have some officials whose motives are good and whose intelligence is of a high order.

Particularly should the church while denouncing sin, remain cheerful. Of all high places in the world the pulpit is the last for the propagation of gloom. The very word "gospel" means "good news," and good news is the parent of hope. The promotion of "peace on earth and good will among men" is the business of the Christian Church.—Minneapolis Journal.

No wonder a number of negroes were lynched in Duluth, with a chief of police whose time seemed to be occupied in smuggling booze into the country from Canada. If the indictment returned against him yesterday is true. The only wonder is the force has provided the city with any protection at all.

Season of Peril.

At this season of the year it is folly to enter your bedroom without turning on the light. Also do not attempt to sit on the edge of the bed unless you are sure the bed is there, for this is house-cleaning time and the women folks may have decided to put the bed on the other side of the room this year, so it is well to be careful, for you never can tell.—Knox Messenger.

That Dose Should Be Effective.
"What are you treating me for, doctor?"
"Loss of memory. You have owed me a bill of \$90 for two years."—Boston Transcript.

Flour From Many Products.
Chinese millers make flour out of wheat, barley, oats, rye, buckwheat, chestnuts, millet, potato, peanuts, peas, beans, lentils, pulse, rice, almonds and fifty other vegetable substances.

First Daily Newspaper.
The first daily newspaper in the world is said to have been established by a woman, Miss Elizabeth Mallette, in London, March, 1702. She published and edited the Daily Courant, which she founded for the purpose of doing greater justice for women.

DR. W. J. HICKSON

Dr. W. J. Hickson, in charge of the psychopathic laboratory of the health department of Chicago, says the average man from off the street examined has the brain of a sixteen-year-old child, while the criminal has the brain of a twelve-year-old child, but this is not hopeless. He says some professional men will not test much higher. The man with a mentality of a ten-year-old is hopeless. Doctor Hickson says crime must be dealt with as a disease; prisons and paroles are not cures, merely helps. He believes criminals should be segregated in farm colonies.

First Jap Woman Journalist.

The first Japanese woman to edit a woman's page in her country, Miyo Kohashi, is studying journalism at Columbia university in preparation for teaching journalism in the Tokyo Union college next year. A decade ago women journalists were unheard of and unthought of in Japan. Now many women are growing interested in the profession, but very few of them have had special training for the work. That is why Miss Kohashi is preparing to teach the subject. "Women in Japan are like the newspaper profession," says Miss Kohashi, "and already in Tokyo we have a club of twenty women journalists." Miss Kohashi is the Japanese representative of an interesting group of women students of 33 nationalities who form the International Foyer of the Y. W. C. A. at Columbia university.

Simple Logic.

The earl of Portarlington, who was one of the first to volunteer for service during the railway strike in England, relates the following story: A boy scout on duty at one of the London termini, feeling the pangs of hunger about eleven o'clock one morning, began a vigorous attack on a substantial lunch he had brought with him. A gentleman passing by was moved to remark: "My boy, if you eat much now you won't have any appetite for your dinner." To which the smart little fellow replied: "Well, I guess if I haven't any appetite I shan't want any dinner." The gentleman had no more to say.

W. JETT LOUCK

The jobbers the country over shared a profiteering melon of \$18,000,000,000, or a tax of nearly \$1 on every family, is the charge of W. Jett Louck, consulting economist of the railroad brotherhoods and unions. He declares that the middlemen exacted 20 per cent profit on their investments, "their wartime practice being actually criminal." Millers of flour, he contended, received profits 375 per cent greater in 1917 than in 1913.

AMUSEMENTS

BEHIND THE DOOR

Remarkable Photoplay by Thomas H. Ince at Best Theatre Tonight

Whenever a photoplay production bears the imprint of Thomas H. Ince's direction, then the American screen fans look for something extraordinary. That seems to have become the rule since Mr. Ince presented such screen triumphs as "Civilization," "The Guilty Man" and "Fables Faces." That Mr. Ince is making huge strides forward was amply evidenced at the Best theatre yesterday, when his latest production, "Behind the Door," starting that virile player, Hobart Bosworth, was displayed with unusual manifestations of approval by a record audience.

The story of "Behind the Door," written by Gouverneur Morris, afforded Mr. Ince ample scope for the gigantic spectacles. It is a story the logical development of which holds one spell bound from start to finish. It is a thrilling narrative of tremendous dramatic strength at times and the finale, which is disclosed by shadows "behind the door," and which breathes tragedy born of relentless vengeance of a man who has been deeply wronged, in one of the strongest seen by motion picture audiences here in many a day.

Oscar Krug, the part played by Mr. Bosworth, is a taxidermist in a small town where people are wont to gossip about their neighbors, right or wrong. At the outbreak of the war between the United States and Germany, rumor has it that Krug is a German spy, and one day, to vindicate himself, Krug thrashes a crowd of men who are reviling him and immediately enlists in the navy. After he is assigned to the captaincy of a merchant vessel, it develops that Krug has secretly wedded Alice Moore, the charming daughter of a banker. She is turned out of her home by her indignant parent, and disguising herself as a Red Cross nurse, she joins her husband aboard his ship. After a cruise of some days the vessel is torpedoed, and Krug and his wife are forced to take to a boat for safety.

The couple fare badly during the next few days in the open boat, when suddenly a submarine appears from the depths. Krug halts the U-boat which is commanded by Lieutenant Brandt, who signals them to come aboard. Krug assists his wife to the deck of the submarine and is preparing to follow her when Brandt orders the crew to thrust his boat away. Krug blasphemes and swears, and forces Alice into the conning tower, and presently the U-boat submerges, leaving Krug alone on the face of the deep.

Krug is rescued by a passing vessel and again rejoins the merchant marine. In the days that follow, sights and stinks the same submarine. Of all the crew, Brandt alone is saved, and recognizing him, Krug plunges into the sea and saves his life. He takes him to his cabin and behind the locked door obtains the full story of Brandt's iniquitous conduct toward Krug's wife. The man steeped with liquor, fails to recognize Krug and he gloats drunkenly as he reveals the story of Alice's sufferings and death at his hands.

Krug trusses up Brandt and proceeds to wreak vengeance upon him. Although the audience are not favored with all the details the shadowgraphs employed by Mr. Ince tell the frightful story of an enraged strong man's vengeance for the wrong done him and his by a ruthless enemy. It is in these scenes that Mr. Bosworth reveals his art—a pictorial display that will linger long in one's memory.

Incontestably, "Behind the Door" is a remarkable photoplay. As the suffering wife driven to madness and death by a ferocious brute, Jane Novak has one of the strongest roles of her career. The support generally is of the high Ince standard, the players including such well known players as Otto Hoffman, Wallace Beery and J. P. Lockney. The photoplay is well worth seeing at any price.

"The Three Kings of Cologne."

This refers to the three wise men of the East who followed the star to the birthplace of Jesus Christ. Their names are usually given as Melchior, Gaspar and Melchior. Their bones are supposed to be preserved in the cathedral of Cologne.

Might Charge the Valet.

A South Wales miner charged with trapping birds was found to be wearing three coats. As this might have been due to an oversight on the part of his valet it was not included in the charge.—Punch, London.

Looks That Way.

To a person, five feet tall standing on the beach at seaside, the horizon is about two and three-quarters miles away.

Egyptian Women Are Serfs.
The treatment of women in Egypt is the darkest phase of Egyptian life, says G. N. Barnes, British member of parliament, who recently returned from a tour of that country.

The men in Egypt, says Mr. Barnes, so far as sex relations are concerned, think themselves the lords of creation. They can divorce their wives at will, without whim or reason, and it is not uncommon for a man to have three wives.

"In many houses," continues Mr. Barnes, "I never saw a woman, and you can take it from me that the position of the women in Egypt is absolutely one of serfdom and dependence. They spend their lives in miserable hovels, in working in the adjoining fields or in getting water."

"They are the serfs of the men and as much beasts of burden as the donkey and the camel. A people which uses women folk in that way are destined to be a subject race and do not deserve to govern."

Personal Preference.

A New York man sent his bride a kiss by wireless. So far as kissing is concerned we much prefer the old-fashioned method.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces, expelling the Poison from the blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials free.

THOS. H. INCE Presents
HOBART BOSWORTH

"BEHIND THE DOOR"

By Gouverneur Morris Picturized by Luther Reed Directed by Irvin Willat

A THOS. H. INCE PRODUCTION
HIS SECRET WIFE!

He did not dare to let the world know she had married him. But when he lost her, then the fire in his broken heart consumed his foes!

A tale of a "coward" who fought like a man, of a "traitor" who proved himself true, of a great love, a great wrong, and of vengeance—"behind the door."

Gouverneur Morris's stirring romance of love, strife and adventure at sea, played by Bosworth at his best and a fine supporting cast, including Jane Novak and Wallace Beery.

Regard of the Public

DIRECTOR OF FUNERALS
720 FRONT ST.
BRAINERD, MINN.

DRINK HOT WATER.
IF YOU DESIRE A
ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with "sallow skins," liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

MUNICIPAL BALL PARK IS NEEDED

Owned and Kept in Shape by City.
Such a Park Will Serve Many Purposes

BE TOURISTS CAMPING GROUND

Flying Field, Circus Grounds, Carnival Grounds, Trap Shooting, Tennis, Race Track

Brainerd needs a municipal ball park. Land can still be acquired at a reasonable figure and close to the city and would fill a long list of needs.

Crosby, Little Falls, Hibbing and other wide awake towns have municipal ball parks. A park of sufficient acreage in Brainerd can have a section devoted to ball grounds and grand stand. It can have a race track, football field, tennis courts, ball grounds for the smaller teams.

A section can be devoted to a flying field with markers for the airmen so they can readily spot the location.

The gun and rifle clubs can have their fields there. The city can lease the grounds to circus and carnival men and acquire some revenue from it. Seventh Day Advent people, Methodist camping meetings can use the location.

A tourist station can be made of a section, where tourists can camp and where fuel and water, ovens and a pavilion can be provided for them, with a caretaker in charge.

Brainerd's park system to date embraces Gregory and Lum parks and the various school grounds. Gregory park offers no field for baseball or any of the strenuous sports, nor does Lum park.

A movement for municipal ball grounds started now would bear fruit next year in the shape of grounds adequate to handle all the various activities noted above and can give Brainerd also a field where an agricultural fair or automobile or tractor exhibition, etc., can be held.

The city needs the field. Every other live, wide-awake town has such accommodations. Can Brainerd lag behind?

WATER LEVEL

A Hundred People Interested Discuss Proper Level for Mille Lac Lake

A party consisting of about a hundred people from different points near Mille Lac lake met at the outlet to discuss the matter of establishing a water level for the lake. Crow Wing county was represented by Commissioners Edward Crust, J. A. Erickson, Ed. Boppel, John Dewing, and County Engineer C. L. Motl. Engineer A. W. Leonard, who has charge of the work on the Scenic Highway was also present. Messrs. Fred and Charley Burman and Fred Newman of Malmø, Aitkin county, attended the meeting and urged that the present stage of water be maintained. H. F. Mann of Wabikon, and Oscar Anderson of Vineland gave some valuable information as to the benefits that would be derived from the establishment of a water level. The delegation from Isle headed by Messrs. John Carlson, Carl Anderson, Alfred Johnson, C. G. Boeck, A. D. Smith and E. C. Boeck all strongly favored the present project.

The water going over the planking at the outlet was measured by Engineers Motl and Leonard and it was found that just two feet was running out.

Engineer Leonard pointed out the location of the new bridge, and also agreed to furnish the Water Board with a map of the outlet.

No overflow was reported at the meeting, but it was decided that anyone having land around the lake, or near the lake that was over flowed on June 27th, that they report the same to E. C. Boeck, Isle, Minn., giving him the legal description of the land damaged, or overflowed, so it could be taken into consideration at the next meeting of the Water Board which will be held at the Aitkin county court house, at Aitkin, at the call of the chairman.

Tribute to the Pen.

The pen, like the sword, has a dark side to its history. Not only has it created a good deal of rubbish, but it has appealed to the evil passions of the ignorant and the disloyal; it has incited anarchy, sedition and hatred. But to the pen we are indebted for all the books of the world. It has enabled poets to sing to us, fictionists to charm us, philosophers and men of science to share with us their valuable knowledge; it gives us the Bible, it inspired civilization. It is a mighty agent "Beneath the rule of men entirely great."

What I Owe to My Parents.

"One good mother is worth a hundred schoolmasters." The truth of this time-honored proverb is borne out by the tributes which successful men pay to the influence of their mothers.

UNIQUE FISHING INCIDENT

Giant Pike Takes Rod and Reel From Lady Fisherman. Which is Recovered Later

Mr. and Mrs. A. Bressler, who have a delightful summer home at St. Cloud, on Gull lake, were out fishing one day last week, when Mrs. Bressler, who is not only an enthusiastic angler but a remarkably successful one, had a strike so vicious that the rod, reel, line and tackle was jerked from her hand into the lake. The rod and reel, a present, was a very desirable one and its loss was greatly deplored by Mrs. Bressler. Five days later Mr. and Mrs. Bressler were again fishing in about the same place, when at a short distance a crippled fish was seen struggling in the water. Mrs. Bressler, remembering the loss of her line tackle at once divined that the struggling fish was the cause of her loss, and after some urging Mr. Bressler pulled up anchor and went to the crippled fish, just about expiring. It proved to be a monster pike, the largest Mr. Bressler ever saw, and attached to it was a line which he recognized as the one Mrs. Bressler lost. By means of the line the rod and reel was recovered from the bottom of the lake. The pike had swallowed the bait, an unusually large sucker minnow, over 6 inches in length, with the hook, and the line being strong enough not to break, had practically anchored the pike to the spot causing it to gradually sicken and come to the surface in its struggles to release itself.

Mrs. Bressler was exceedingly pleased to recover her valuable rod and pole.

CROP CONDITIONS

AROUND PEQUOT

At the present time the crop outlook for Pequot and vicinity is very favorable. The hay and small grain will undoubtedly yield the heaviest crop in years. There are many fields of clover within a few miles of Pequot which will yield two to three tons per acre, and several fine alfalfa fields that should go three to four tons on the first cutting. Settled weather is essential for the next two weeks if this hay is to be put up in good shape, as it is very difficult to cure such a crop when the ground is saturated with water.

The rye varies considerable this spring, depending a good deal upon the time it was seeded in the fall. The early sown rye has stood out in good shape and will make a heavy crop, while the late sown grain appears to stand much thinner. However there is no doubt now, but that all the rye will fill in good shape and yield a good average crop. Spring sown grain prospects are very bright; the grain being heavy and of good color. There are a few spots where the grain is on heavy ground and has turned yellow from too much moisture, but it is surprising how few and far between these spots are when the amount of rainfall is considered.

It looks as though the potatoes were out to win the pennant this season however; they have been playing the game ever since they got in the ground. A good big acreage was planted here in spite of the shortage of seed, and if present prospects are any indication, the Central Potato Growers Exchange will have no cause for complaint on the amount of business they get from Pequot.

With a combination of productive season, and a beautiful country there is little doubt but that our forty odd new settlers will become new boosters for Pequot.

Counting Has a Limit in China.

Ten thousand is the largest number in the Chinese language. Therefore all large sums must be stated in multiples of this figure—the population of the country is four times 10,000 times 10,000, or 400 million.—Asia Magazine.

NOTICE

Sealed bids will be received by the undersigned up to 2 o'clock p. m., Saturday, July 10, for remodeling the school house, and building new basement under same and moving building known as the Nokay Lake District school house. Specifications can be seen at the Dispatch office. The right to reject any or all bids is reserved.

49TH INFANTRY TEAM ON SUNDAY

Brainerd Baseball Team to Battle With Fort Snelling Army Champions at the Koering Grounds

ARMY MEN ARE GOOD PLAYERS

Defeated Every Team Tackled at St. Cloud, Anoka, Princeton, in Tour to the North

Brainerd Sunday afternoon will play the 49th Infantry team at the Koering grounds. This army team is composed of ex-league ball players, of men who have had much experience in army teams and all play a superior article of ball.

To date they have defeated every team tackled in their tour north from Fort Snelling. Every team of St. Cloud, Anoka, Princeton and other points bit the dust when they encountered the army men.

Many of the army men have had big league experience. They play a fast game, being brilliant in fielding and hitting.

BASEBALL BUNTS

Ironton will have a carnival opening July 12 for the baseball club's benefit. The Ironton players are practicing daily and getting into trim. Harry Wolfe of Ironton is going great with the Clydes. Putt Russ has also joined the Clydes.

A peculiar situation arose at a recent St. Mathias game. The St. Mathias fellers claimed that a bunt delivered four feet from the catcher's station in the direction of the pitcher's box could not be fielded by the catcher. They claimed it was a new rule and made it stick with the opposing nine. Common sense alone would decide that the catcher had the right to field the ball, who else would be able to get the dumped ball? Many of the bunts in Little Falls at the July 5th afternoon game were delivered in just that manner, landing in muddy ground and sticking four feet from the plate.

Marriage Licenses

June 28—Earl J. Thomas and Rachel Isabel Thompson.

June 30—Ernest Wilhelm Benson of Ramsey county and Aurora Boul's Dugre.

Reduce Weight Happily

Use famous OIL OF KOREIN. Follow directions of Korein system thoroughly. Korein—health, strength, efficient, lasting. Sold by drug stores, including: H. P. Dunn, G. E. Lammon Johnson's Pharmacy

And by good druggists everywhere who will supply you with genuine OIL OF KOREIN.

Fat Folks Be Slender

\$100.00 GUARANTEE

If over-stout, you will be happy to learn how you may easily reduce weight and measurements without starvation diet, thyroid, or exhausting exercise. These pictures give you an idea of improvement in appearance and you may expect wonderful benefit in personal attractiveness and winning efficiency when you are slender.

Surprising weight reduction reported—even after just a few days' treatment. With proper reduction the flesh becomes firm, the skin smooth and the general health improved. In fact, work seems easier and a lighter, more buoyant feeling takes possession of the whole being. It is a fine sensation—that of looking and feeling young, supple, cheerful, active, alert and magnetic. If you want to reduce 10 to 60 pounds safely, pleasantly, you should give Korein system a trial. The name Korein is pronounced *koreen*. Start on the road to longer life and happiness today. Obtain a small box of Korein under \$10 money refund guarantee at any busy drug store. Show your friend this advertisement.

Report of City and School Public Nurse for Month of June

It is on 2500 cards transferred and filed for next years school use. Public Health Nurse's Office at City Hall settled, with new furniture in place.

25 follow-up home calls. Tuberculosis clinic—1 adult, 1 child.

Tuberculosis home calls 6. Mental clinic, under Dr. Kuhlmann, State Psychiatrist, 2 days at Court House, and one-half day at Nurse's Office.

Three Nutritional classes held. List made for Child Welfare Board of Chronic truants for use next school year.

Co-operated with certain agencies in various cases.

The value of the Health car was especially demonstrated this month in transportation of children for the clinics.

The Mental Clinic resorted in three children being recommended for special opportunity rooms. There are about fifty other children in Brainerd who would be benefited by special classes.

Office hours of Nurse, 1:30 to 3:30 every week day afternoon but Saturday.

Telephone 816-W.

Mothers may bring their babies to the office to be weighed and measured and compared with the standard.

Literal Truth.

On a crowded transport going to France, the men had to sleep where they could find room. One of them, lying on the deck, said to his buddy: "Talk about your hardships! This is the hardest ship I was ever on."

Increasing The Purchasing Power of Your Corset Dollar

The only way you can make your dollar of today worth one hundred cents is to spend it wisely. You are pretty certain to pay a good price for whatever clothes you buy; be certain what you buy is what you want; that what you buy fits you mentally as well as physically so it will not be wastefully discarded before it has given full wearing service; that what you buy is of such quality that its wearing service alone will justify the expenditure.

A few dollars invested in a

GOSSARD Front Lacing CORSET

will save you—Oh, it cannot be expressed just in dollars and cents, it will have to be realized in blessings that are beyond price—style, comfort and health. You can buy a Gossard at any price you care to pay and at any price every dollar you spend will have a purchasing power of 100 cents.

The specialized service of our expert corsetiers assures your satisfaction.

HOBSON ASKS COX TO STATE POSITION ON LIQUOR QUESTION

COX SAYS HE DOES NOT INTEND
TO DODGE ISSUE—WILL MAKE
A STATEMENT

HERBERT WALKER
(Written for the United Press)
Dayton, Ohio, July 8—Gov. James M. Cox today was asked by Richmond P. Hobson, Alabama, dry leader and representative of the anti-saloon league, to make a clear definition of his position on the prohibition issue.

In a telegram from San Francisco Hobson declared that a statement from Cox to the effect that he was opposed to an increased maximum of alcoholic content of one-half of one per cent "would force to the democracy millions of voters and assure the party's success."

The democratic nominee said that he expects to answer Hobson and the league later in the day, and indicated he did not expect to dodge the issue.

BOLSHEVISTS SMASH POLISH RESISTANCE

(United Press)
London, July 8—Smashing of the Polish resistance along the entire front of the German and the Austrian border was indicated in dispatches received here from many sources today.

Bolshevik forces carried out a well planned military maneuver by moving in formation from Rovna and have now concentrated their forces for starting a drive toward Warsaw. Latest advices were that after having captured Mohilev the red troops, including Babovich and Lutek, had crossed in allowing the rear guard to come up with advance forces.

Polish Resistance Broken Down
Berlin, July 8—Indisputable reports have been received from Poland showing that the entire Polish front from Pripet to the Carpathians has completely broken down, said a dispatch to the Berlin wireless press today.

White Russians were reported to have revolted against the Poles in many sections. Many bridges were destroyed.

50 KILLED IN HUNGER RIOTS IN CHINA

(By United Press)
Chia Kiang, China, July 8—Crushed by hunger, a mob attacked a rice packet in midstream today. They hurled the boatman's wife and baby overboard and attempted to take possession of the craft. In a riot that resulted fifty were killed. The boatman wielded a sword and aided by a small number of men repulsed the attack.

Profiteers here are reducing prices to halt disturbance. Wealthy persons throughout the country are contributing funds to reduce rice prices and check the famine.

BOLSHEVIST TROOPS ADVANCES AFTER CAPTURING IM- PORTANT FORTRESS

(By United Press)
London, July 8—The British war office took a pessimistic view of the Polish situation today upon receiving a report that Bolshevik troops were continuing their advance after having captured the important cities and fortresses of Rovna and Bobynia. Advices from Sofia today said a general Rumanian mobilization was under way and the Rumanian general staff had announced its intention of erecting a strong defense against the bolsheviks.

ARMISTICE ARRANGED WITH VILLA FORCES

(By United Press)
Washington, July 8—The American consul at Chihuahua today advised the state department that Mexican officials have confirmed a report that an armistice had been arranged between Villa and the Mexican federal forces, to be effective until July 15.

Room for a Runner
Boys' Life
To live the wrong way is evil—May Right

New York's Great Fire.
One of New York's greatest fires started on Sept. 21, 1776, six days after the British captured the city. Trinity church and 403 other buildings were destroyed, says Gas Light.

LEADER OF LONGSHOREMEN

T. V. O'Connor, president of the International Longshoremen's association, appealed to Governor Smith to intercede in the strike in New York harbor. The "open shop" issue threatened to tie up the whole harbor.

Telegraph Statistics.

Of the 51,574 employees of all kinds, both salaried and wage earning, of all telegraph systems in the United States during 1918, 47,277, or slightly more than nine-tenths, were reported by the land lines and the salaries and wages paid these employees amounted to \$396,302,140. Of the 31,297 wage earners, 28,224, or about nine-tenths, were reported by the land lines, and their wages amounted to \$21,834,570. Operators constituted 21,639, or 69.1 per cent of the wage earners for all systems, 71.5 per cent of the total number of wage earners for land lines and 47.1 per cent of the wage earners for ocean cables. Female operators constituted 22.3 per cent of the operators employed on land lines, and 11.6 per cent of those employed on ocean cables.

High Wages and High Prices.

J. H. Thomas, secretary to the British National Union of Railwaymen, recently said that the workers should clearly understand that every time they made a wage demand, it was followed by an inevitable increase in the cost of living, which not only nullified the increase but had the effect of creating a heavier burden upon a large section of the community. "You are never going to have your industrial position normal," he declared, "while there is a total disregard of the relationship of one industry to another."

DEMOCRATIC LEADERS WILL OUTLINE CAM- PAIGN NEXT WEEK

HERBERT WALKER
Dayton, Ohio, July 8—Governor Cox today stated that he plans to have an early conference with President Wilson on campaign plans, but that no date for this had been set. The governor has received scores of invitations to speak, but has decided to make no addresses until after campaign plans are outlined at a conference next week.

Dayton, Ohio, July 8—The presidential campaign of Governor James M. Cox will be outlined here next week at a conference of Franklin D. Roosevelt, vice presidential nominee; Homer S. Cummings, chairman of the democratic national committee; E. H. Moore, Cox's manager at San Francisco, and other prominent democrats. Cox said that he desires to plunge into an active and vigorous campaign at the earliest possible date. Only the protest of any prominent democrat will deter him from making a tour, it was announced.

Washington, July 8—Gov. James M. Cox, democratic presidential nominee, will be allowed to take all party leadership without resistance by the Wilson administration, according to all indications here today. High democratic officials from the president down, have made it plain that their part in the coming campaign depends entirely on the wishes of Cox and his campaign manager. Had there been any disposition to make the campaign center at Washington instead of Dayton Wilson would have had to accept his wishes, it was found out here.

Another significant circumstance is that no word of criticism of Cox or any of his acts has been made by democrats, officials said.

Atmosphere Above Earth's Surface.
The atmosphere is believed to extend much more than 100 miles above the earth's surface. Its density decreases rapidly for the first few miles of ascent, then much more gradually. From the phenomena of twilight, due to refraction of light, it may be demonstrated that the air extends up to a height of 45 miles; but other phenomena, such as the behavior of meteors and the aurora, show that rare air exists at a much greater height.

STAND IN WAY OF BUSINESS

Historic London Churches May Have
to Give Way to the Demands of
Modern Progress.

Nineteen historic city churches in the heart of London, 13 of them the work of Sir Christopher Wren, have been marked for destruction by a commission appointed by the bishop of London to consider the whole question of the city churches. In seven cases it is proposed to preserve, for their architectural and historic value, the towers of the churches. In the other cases these old monuments, dating back to the seventeenth century and the great fire of London, would disappear.

This is the recommendation of the bishop's commission, but already strong protests have arisen and the Society for the Protection of Ancient Buildings has announced that it will take every possible step in making the strongest protest.

The value of the sites of these churches is placed at nearly \$8,500,000, situated as they are in the great business center of London, between St. Paul's and the Tower and a little to the north of that line. In addition to this enormous return from the church property the commission expects to realize an income of \$120,000 a year from the benefices after setting aside \$81,000 a year for the salaries of certain of the clergy concerned. For the site of a single church, that of All Hallows, Lombard street, Barclay's bank has offered \$2,500,000, and the value of the site of St. Dunstan's-in-the-East has been estimated at \$1,250,000.

MISS MILDRED C. MALTON

Miss Malton, who's home is in Boston, was a delegate to the recent annual convention of the National Association of Credit Men at Atlantic City.

SEA FURNISHES MUCH FOOD

United States Has Perhaps the Most Valuable Fishery in Which All Coast States Share.

The United States has what is said to be the most valuable fishery in the world, but probably not one person in ten can name it. It is conducted in every seacoast state from Cape Cod to the Rio Grande, and from Puget sound up to San Francisco, and it yields annually about 115,000 tons of food as prepared for consumption, an equivalent of 400,000 dressed steers. It employs about 67,000 persons, and its annual product, as it comes from the water, is valued at over \$15,000,000. There are other fisheries that possibly exceed it in the ultimate value of their products, but in such cases much labor and material and a heavy investment of capital have been concerned in manufacturing operations to prepare the product for the consumer; as, for example, the canned-salmon industry of the Pacific coast. The American fishery for codfish on the Atlantic coast, which has been the cause of much diplomatic discussion and of grave international negotiations, appears almost insignificant in comparison, its value in normal times before the great war being about \$3,000,000 yearly; and the shad fishery, the prospects of which each spring call forth much comment in the public press, produces not one-tenth as much food. The most valuable fishery is that which furnishes us with oysters. The bureau of fisheries has more than once called attention to this vast food resource and the possibilities for increasing it and using it to better advantage.

Horse's Decorations.

The brass decorations frequently seen on the harness of a work horse are a direct survival of the amulets which bedecked the horses of the time of Julius Caesar and the ancient Egyptians.
